Piankatank Geezer Guys

Steering Committee Minutes – June 30, 2026

Steve Saunders Coles Buchanan Hunt Thompson Ed Lipinski Fred Haggerty George Cummings Mike Reed Other Attendees: Bill Small Randy Krahn Wayne Schwartz Bob Mowers Jim Walsh Dave Brown

Agenda Items/Discussion:

1. Steering Committee – Steve Saunders – Included Bill Small as a voting member until the new Tuesday Coordinator has been identified.

2. Tee Assignment Policy – The Committee changed the Tee Assignment Policy to allow players to play from the tee of their choice. With certain exceptions, players may change tee boxes once each calendar quarter.

3. Minimum Rounds Policy – George Cummings – The Committee voted to eliminate the current required 10 round minimum in order to qualify for awards.

4. Tie Breaker Policy – George Cummings – Should ties occur in the compilation of net and gross wins, a player's handicap index will be used as the tiebreaker, rather than their average score.

5. Website Tables 1 – George Cummings – Since we no longer have a statistician, the Committee voted to eliminate the "SCORES", "DAILY WINNERS", "HANDICAP", and "TEE ASSIGNMENTS" tables in our website. This information can be found in the X4Golf system.

6. Website Tables 2 – George Cummings – The Committee decided to continue the "LEADERBOARD", CLOSEST TO THE PIN", "MONEY LIST", and "AWARDS" tables with modifications. These tables will be updated by the Web Master.

7. Memorial Trophy – Jimmy Walsh – The Committee decided that this trophy should be awarded to the member with the most cash won during the season, rather than the number of gross wins.

8. Cash Prizes – Billy Small – This item was rescinded.

9. Card Draw for Pairings – Randy Krahn – Replace the current method of pairings by the Round Coordinators with a card draw system before each round. This suggestion was not approved.

10. Handicap System – George Cummings – Because our current system is outdated and no longer supported, we have opted to begin using the X4Golf Handicapping System, which will track our scores, calculate our handicaps for various tees, as well as courses, and provide detailed round reports. Member indexes and handicaps will be determined by the best 5 of the last 10 scores reported. The system is accessible by all Geezer members to view but not change the data.

11. Round Coordinating Method – George Cummings - Since there are several options available in the X4Golf system to create a round line-up, the Committee has decided to use that system, rather than the current spreadsheet.

Respectfully submitted,

Mike Reed, Secretary
